## 21 SEPTEMBER - EVENING AGENDA

**18:00** Arrival & Welcome Champagne

**18:30** Trends & Triumphs in the Passwordless Technology Space

- How to achieve a password- & keyless environment using ephemeral certificates?
- Risks & rewards: Granting ZT access in real-time in IT & OT
- How to defeat the impending dangers of quantum computing?

**19:00** Case Studies

1. How a Fortune 500 company secures access to container environments
2. Smart Home: Secure remote access in OT

**19:10** Q&A

**19:20** Fine Dining & Interactive Discussion

**20:40** Cocktails & Conversation

# Who Will You Meet?

- Security experts from the leading companies across Poland are gathering to discuss best practices to manage 'access & authorisation' to minimise risk.

## Joining Job Profiles

- CISOs, CIOs, CTOs & security operations heads
- Interindustry for a diverse debate, with attendees contending with complex environments

# ATTENDEES

## Join 10 Security Leaders

**Over  
Fine-Dining**

**Private  
Idea-Exchange**

**In a  
Scenic Location**

**CONTACT US: [attendees@cnetwork.io](mailto:attendees@cnetwork.io)**

# DINNER DISCUSSION BACKGROUND

Cyber threats have become a global concern, impacting intranet, extranet, and internet systems. Data is now spread across various boundaries, including outsourced data centers, hybrid clouds, and third-party services. A holistic and next-generation Zero Trust approach is needed to address these modern threats effectively.

Your evening will bring together the leading CISO community to debate best practices, sharing experiences on how they manage access and thoughts on the optimal approach to control.

## Key questions your fellow attendees will discuss include:

- How can large organisations become password- & keyless?
- What is needed for easy & fast management of OT remote access?
- What are the best practices to defend your long-term secrets against quantum threats with quantum-safe cryptography (QSC)?

**Your complimentary evening is brought to you by technology leader, SSH Communications Security. Your evening's expert speakers:**

- Dietmar Wyhs, Sales Director DACH & CEE, SSH Communications Security
- Marta Grim, EMEA Channel Manager, SSH Communications Security

**REGISTER**

**Logistics:** Gastronomja Restauracja,  
Grzybowska 56, 00-844 Warszawa,
